

Amplecta Mosquito Trap

MCP-800

The Mega-Catch Premier Mosquito Trap is a mosquito-catching machine, which keeps mosquitoes out of your yard. Uses UV and oscillating-light, heat and an attractant strip to lure mosquitoes.

Used properly, this product will reduce the number of mosquitoes over time by reducing the number of reproducing females

Programmable timer can be set for specific hours during day or evening.

The MCP-800 is approved for outdoors use in backyards, patio areas gardens and near barns and stables. Its 18m long power cord let you place the trap far away, from where you are.
