

McCORMICK **SRSERIES**

ROTARY MOWER
SR820

SR820 - 8.20m (26'11") working width

SR SERIES	
MODEL	SR820
Specification	
Working width	8.20m (26'11")
Cutting height	25mm-400mm
Cutting capacity	50mm
Tractor requirement & attachment	
HP requirement	150
Method of attachment	Drawbar
Dimensions	
Weight	4100kg
Overall width	8.4m
Overall length	6.15m
Transport width	2.8m
Transport height	3.8m
Equipment details	
PTO speed	1,000rpm
Protection	Slip clutch
Number of blades	10, 15, 20 or 30
Number of rotors	5
Blade overlap	110mm
Blade tip speed	5340m/min
Hydraulic wing flex	90° up, 25° down
Wheels	8

THE BIGGEST AND THE BEST

McConel's largest and most productive mower, the SR820's fast cutting action and 8.2m working width makes it one of the most productive mainstream rotary mowers on the market.

The SR820 is designed for productivity with five high-performance rotors and a choice of 10 to 30 hardened updraft swinging blades that enable it to tackle material up to 50mm thick. Reliability is enhanced by a six gearbox driveline, each with built-in slip clutch protection, ensuring the power is spread evenly across the cutting width. This feature also enables an even cut and spread and an attractive finish.

KEY FEATURES

Ideal for large-scale farmers, local government teams, and professional mowing contractors, the SR820 can be used in a huge variety of applications from airports and sports venues to pasture and stubble.

- 8.2m working width
- High and low hitch options
- 115 degrees of wing movement (+90° up, -25° down)
- Bondioli & Pavesi gearboxes and drivelines
- Five powerful rotors
- 1000rpm wide angle PTO
- Slip Clutch Protection
- Front and rear chain guards
- Cutting heights from 25mm to 400mm
- 50mm cutting capacity
- Choice of 10, 15, 20 or 30 blades
- Walking axles
