

# Miriam - Post surgical bra

ART.NO 31154

Seamless, post-operative, fixation bra in extra soft material with elastic cups. Designed for use during rehabilitation after breast surgery and/or radiotherapy when support and relief is needed but without compression over the bust.

- Openable at center front with hook and eye closure, adjustable in two steps.
- Wide, openable and adjustable shoulder straps at the front with hook and eye closure, adjustable in several steps.
- Extra wide across the back and goes high up towards the armpit.
- Soft, wide and seamless edge under the bust.

**Indications:** Post-surgical bra to be used after different types of breast surgery.

**Contraindications:** Wound infection.

**Material:** Polyamide 91%, Elastane 9%. Latex free.

**Washing instructions:** Machine wash at 60°C. For optimal color durability, washing at 40°C is recommended. Can be tumble dried at low heat. Do not use bleach, chlorine bleach or fabric softener. Do not iron. Use of a laundry bag is recommended.
