

Atle High - Back orthosis

ART.NO 50101

Elastic back orthosis in shapeable material which ensure that the orthosis fits snugly. Provides stable and comfortable support across the entire lower back. Suitable for low back pain, especially suitable for vertebral compression caused by osteoporosis. Suits most body shapes – both men and women. Atle is available in black in two heights. The material provides excellent compression and is comfortable to wear because it is light, breathable, and soft against the skin. The ribbed structure of the material also helps keep the brace in position. Atle features a handle and Velcro fastening at the center front which makes it easy to apply. The elastic fastening straps are adjustable and provide stable support. They are also fastened at center front using Velcro. The two replaceable back stays can be shaped individually to fit the contours of the back.

Indications: Lumbal/lumbothoracal back pain.

Contraindications: Unstable back fracture. Sciatica pain of unclear genesis.

Material: 83% Polyester, 7% Spandex, 8% Nylon, 2% Latex.

Washing instructions: Machine wash at 40°C (104°F). Remove the splints. Seal the Velcros. Use washing bag. Do not bleach. Do not dry clean. Do not iron. Do not tumble dry.

Measurement: Hip circumference cm.

Size	Hip circumf. cm	Art.no	Height center front	Height center back
S	80-95	50101-00-40	24	34
M	95-105	50101-00-50		
L	105-115	50101-00-60		
XL	115-125	50101-00-70		
2XL	125-135	50101-00-80		

LATEX Latex tread is covered by other textile fibers, will not get in contact with the skin.
