

Ballerina - Posture bandage

ART.NO 50103

Ballerina is a functional posture bandage that provides a comfortable reminder to maintain good posture in the upper back. Broad, soft straps across the shoulders cross over the back and fasten in front using Velcro. The broad, stable back section works effectively on the shoulder section without causing unpleasant pressure above the diaphragm. Ballerina also provides thoracic relief. The straps are simple to cut to the desired length. Flexible and comfortable brace that is ideal for wearing under everyday clothes. Color black.

Indications: Functional thoracic- and shoulder posture bandage. Thoracic kyphosis and posture related problems. Clavicle fracture.

Contraindications: Unstable thoracic fracture.

Material: 85% Polyester, 7% Spandex, 6% Nylon, 2% Cotton. Latex free.

Washing instructions: Machine wash, 40°. Close the Velcro. Use a washing net. Do not bleach, do not dry clean. Do not iron or tumble dry.

Measurement: Thorax measurement below the bust in cm.

Size	Measurement in cm	Art.no
