

# LyftPlus Special - Binder

ART.NO 50208

Semi-finished product to be used for manufacturing of an extra steady elastic abdominal binder. The front is constructed to provide an efficient support and "lift" of the abdomen. LyftPlus Special is suitable for patients with a weakened and/or larger abdomen and with less severe hernia. For use also after abdominal surgery in order to prevent pressure on wounds, scar rupture and incisional hernia. The product can be used as a stoma binder for patients with a large abdomen for which ordinary stoma binders will not provide sufficient support. The material of the back part of the product is elastic, while the front part is non-elastic. This provides a steady support and pressure to the abdomen. The front and back seams are "open" in order to enable an optimal fit of the product. The front top and bottom of the product can be shortened (cut) to attain the desired height. Color black.

**Indications:** Mobilization after surgery. Stabilizing binder for hernia/stoma/ostomy hernia. Prevents herniation. Fixation of stoma bandage.

**Contraindications:** Incarcerated hernia.

**Material:** 66% Polyamide, 28% Polyester, 6% Elastane. Latex free.

**Washing instructions:** Machine wash at 40°C (106°F). Seal the Velcros. Use washing bag. Do not bleach. Do not dry clean. Do not iron. Do not tumble dry.

**To be ordered separately:**

- Bias binding, art. no. 91121-00-00
- Spiral stays, art.no. 91122-00-21
- Velour Active - velor fabric, art.no. 91130-00-00
