

Mika - Fixation band

ART.NO 50224

Soft fixation band for fixation of dressings or to be used as a breast band. Easy closure with Velcro in front. The fixation band is made out of a flexible airy elastic material that feels comfortable towards the skin. Size is flexible and can easily be adjusted as the Velcro attaches to the surface of the entire band. In the same way, level of compression can be adjusted as needed. Mika comes in two flexible sizes. The fixation band is discreet and invisible under clothing. Mika is available in white. Height 15 cm. The fixation band cannot be cut.

Indications: To be used as a postoperatively fixation band after surgery.

Contraindications: Infection.

Material: Polyamide 77%, Elastane 13%, Cotton 10%.
Latex free.

Washing instruction: Machine wash at 60°C (140°F). Seal the Velcros. Use washing bag. Do not bleach. Do not dry clean. Do not iron. Do not tumble dry.

Size/Measurement: Circumference of intended placement.
