

ThoraCare – Binder/vest

ART.NO 50300, 50301

Postoperative binder/vest after thoracic or breast surgery for pain relief, support, mobilization and fixation of dressings. Simple closure with Velcro at the front and flexible, adjustable shoulder straps. Size is flexible and can easily be adjusted as the Velcro attaches to the surface of the entire binder. To improve fit for a larger bust, you can cut between the seams. ThoraCare is made of a flexible elastic material that breathes and is shaped under the armpits. No seams or other parts that cause chafing or irritation. Available in two different heights.

Level of compression: Medium, 2 out of 3.

Indications: Postoperative binder/vest after thoracic or breast surgery.

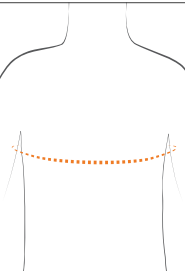

Contraindication: Infection.

Material: Polyester 46%, Polyamide 38%, Elastane 16%. Latex free.

Washing instructions: Can be washed at 95°C approx. 10 times. The lifetime of the product increases when washed at 40-60°C. Seal the Velcros. Use washing bag. Do not bleach or use softeners. Do not dry clean. Do not iron. Do not tumble dry.

Measurement: In order to determine the correct size, measure circumference across the chest, largest measurement.

Size	Circumference chest (cm)	Art.no ThoraCare 23 cm	Art.no ThoraCare 30 cm
S	70-80	503000940	-
M	80-90	503000950	-
L	90-105	503000960	503010960
XL	105-120	503000970	503010970
2XL	120-145	503000980	503010980
3XL	145-170	503000990	503010990

50300 - 23 cm height: To improve fit for a larger bust, cut between the seams.

50301 - 30 cm height

50301 - 30 cm height
