

WalkerFix - Walker

ART.NO 80210

WalkerFix has fixed ankle with aluminum uprights. The model is lightweight and user-friendly. The rocker sole with a low profile allows for good stability and facilitates a normal gate. Circular Velcro-straps. Soft padding.

Indications: Immobilization of foot and ankle. For the treatment of soft tissue injuries, sprains, stable fractures and an achilles tendon rupture. Even for postoperative stabilization of the ankle.

Contraindications: Not intended for diabetic patients. Not intended for unstable fracture.

Risks: No known.

Material: 32% Polyamide, 39% PU-foam, 29% Polyester. Latex free.

Washing Instructions: The shell is cleaned with a damp cloth. The padding should be hand washed max 30°C and dried flat. Do not tumble dry.
