

WITHOUT TPO

“Our range of creamy-textured gels stands out with exceptional coverage from the very first application. A true professional performance.”

GEL LAC PRO - 9 ML OVER 190 SHADES

A single coat is enough to achieve a perfect, even application with an ultra-glossy finish and an average wear time of 3 weeks.

Professional performance: creamy, highly pigmented texture for easy application without excess thickness.

Radiant finish: mirror-like shine that enhances your manicures.

Long-lasting wear: optimal resistance for everyday life, without chipping.

Ease and comfort of use: the entire YUMI Nails line is Soak Off, meaning it dissolves quickly in about 10 minutes. No more aggressive filing — your nails stay protected and healthy.

Whether for everyday maintenance or to enhance your hands for a special occasion, YUMI Gels Lac Pro meet all your clients' expectations. They combine professional quality with long-lasting performance.

DIRECTIONS FOR USE:

Take a small amount of gel and apply it in a thin, even layer on the nail. Cure for 30–60 sec under LED or 120 sec under UV (depending on the color). If necessary, apply a second thin layer for a perfect result and repeat curing. (Thanks to YUMI's high coverage, one coat is usually sufficient.)

INGREDIENTS :

TRIETHYLENE GLYCOL DIMETHACRYLATE, ALIPHATIC URETHANE ACRYLATE, HYDROXYPROPYL METHACRYLATE, BIS-TRIMETHYLBENZOYL PHENYLPHOSPHINE OXIDE, ETHYL TRIMETHYLBENZOYL PHENYLPHOSPHINATE, 2-HYDROXYETHYL ACRYLATE
