## Technical Specification BlueMan - Training Suit

Article number; Tbluem-suit

The Blueman suit is made for Semi/half contact training indoor and outdoor. The suit allows realistic training where the crime happens due to the strong outer material. C.P.E. uses removable inner layer (MV-liner) which easily can be washed or replaced with new fresh ones between users.

C.P.E. s helmet **Level 2** is the standard for the suit. It has a 2mm thick steel gage with only 20mm spaces, that makes it possible to train with training knives or similar weapons without the risk to injure the persons face.

The Pants has a removable Groin protector to fits both male and female users. The Thigh guards are attached to a wide and strong belt that gives extra protection for the hips and lower stomach.

The BlueMan suit is certified according to;  
**Directive 89/686/EEC**, number 13234VLVS01

**The suit consist of;**

- Helmet Level 2
