WIP

200/300 GRAM DUPONT™ SORONA® SUSTANS® INSULATION

Lightweight breathable warmth. Unparalleled softness with an exceptional resistance to heat loss.

ANATOMICAL SCULPTING

Arms, legs and torso have been anatomically designed to enhance manoeuvrability.

VENTED MESH SHOULDER PANELS

Provides rapid air and moisture regulation.

NEOPRENE WRIST CUFFS

Isolating while wet. Equipped with thumb-loops.

LOW PROFILE FLEECE NECK

Less volume when used under a dry-suit. With Velcro closing.

SNUG FITTING LOWER LEG

Less bulk around the lower legs makes it easier to don and doff your dry-suit. Wide foot straps.

PRE-COMPRESSED PADDING

Lightweight breathable warmth. Unparalleled softness with an exceptional resistance to heat loss.

ZIPPERED HIP POCKETS

Hip pockets lined with a soft micro-fleece, for added comfort between dives.

CORDURA REINFORCED

Knees and elbows have been reinforced with Cordura fabric.

PREPARED FOR PEE VALVE

Pre-installed outlets for pee valve hose on both sides.

NORD

PREMIUM INSULATION

It might very well be wrong to call Nord a successor to our huge success, the WarmTec. Nord is so much more! Nord is a gender-specific, anatomically sculpted undergarment, designed to keep you warm and dry in the most demanding environments.

Whether you need a 200g (Nord) or a 300g (Nord X), breathable and water-resistant undergarment, Nord will do the work. It has pre-compressed padding in environmentally friendly DuPont Sorona padding with a quilted lining. The material has a 4-way stretch for great movability plus gusseted crotch and armpits making valve drills a walk in the park. Cordura reinforced knees & elbows, zippered hip pockets lined with a soft fleece and a chest pocket for smaller items.

All pockets are equipped with easy-grip zip-pullers. The back has an elastic waistband to give you a snug fit. Arms are equipped with neoprene wrist cuffs to keep you warm and dry if the unexpected should happen, a vented shoulder panel, the lower legs have a more snug-fit shape, the low-profile neck collar is made of a soft fleece material with a Velcro closing. The male version is equipped with a longer two-way zipper for easier access. Preinstalled outlets for P-valve hose on both sides.

ANATOMICAL SCULPTING - Arms, legs and torso have been anatomically designed to enhance manoeuvrability.

PRE-COMPRESSED PADDING - Lightweight breathable warmth. Unparalleled softness with an exceptional resistance to heat loss.

FOUR-WAY STRETCH - Ensures a comfortable fit.

TPU MEMBRANE - A breathable, windproof and water resistant outer layer.

CORDURA REINFORCED - Knees and elbows have been reinforced with Cordura fabric.

ZIPPERED HIP POCKETS - Hip pockets lined with a soft micro-fleece, for added comfort between dives.

ZIPPERED CHEST POCKET - A discrete zippered pocket for car keys, wallets and other essentials.

ELASTIC WAISTBAND - A elastic waistband in the back.

NEOPRENE WRIST CUFFS - Isolating while wet. Equipped with thumb-loops.

LOW PROFILE FLEECE NECK - Less volume when used under a dry-suit. With Velcro closing.

VENTED MESH SHOULDER PANELS - Provides rapid air and moisture regulation.

PREPARED FOR SUSPENDERS - Pre-mounted tabs for the fitting of optional suspenders.

PRE-BENT ARMS AND LEGS - Provides a perfect anatomical fit when in diving position.

SNUG-FITTING LOWER LEG - Less bulk around the lower legs makes it easier to don and doff your dry-suit. Wide foot straps.

ZIPPER PULLER - A newly designed zipper puller with a secure grip, with or without gloves.

A LONGER TWO-WAY ZIPPER - The male version is equipped with a longer two-way zipper for easier access.

PREPARED FOR PEE VALVE - Preinstalled outlets for P-valve hose on both sides.

GUSSETED CROTCH AND ARMPITS - Gusseted crotch and armpits elevate freedom of movement.
