TAKLISTER & TAKROSETTER

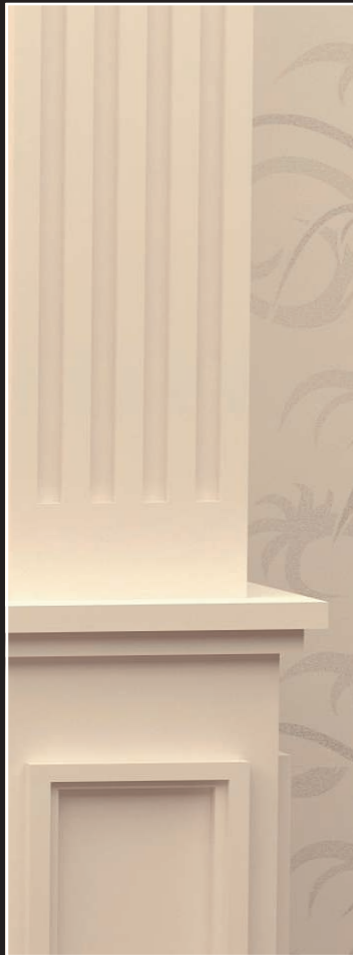

Återskapa den gamla stilen med ett modernt material. Våra lister, takrosetter och övriga dekorelement är tillverkade utav den miljövänliga plasten polyuretan. Våra polyuretanprodukter är mycket enkla och kostnadseffektiva att sätta upp.

- Lätta att skära till.
- Jämfört med stuck- och trämaterial är de mycket lätta att montera med sättlim (och eventuellt någon spik).
- Takfärg och snickerifärg fäster mycket bra, särskilt som våra produkter redan är grundmålade.
- Kan även monteras utomhus förutsatt att de målas med en bra skyddande färg, såsom linoljefärg.
- Jämfört med billigare lister/rosetter av frigolit är polyuretan ett mer stöttåligt material och färg fäster bättre.
- Till skillnad från trä är polyuretan ett stumt material som inte rör sig, vilket minskar risken för oönskade sprickor mellan list och vägg/tak.

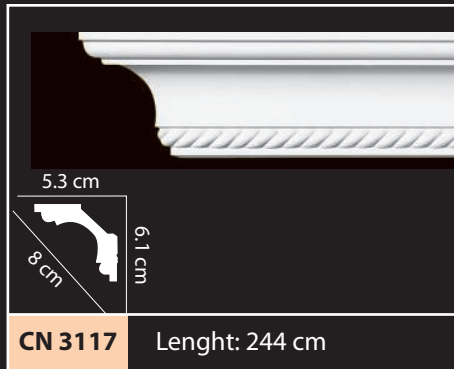

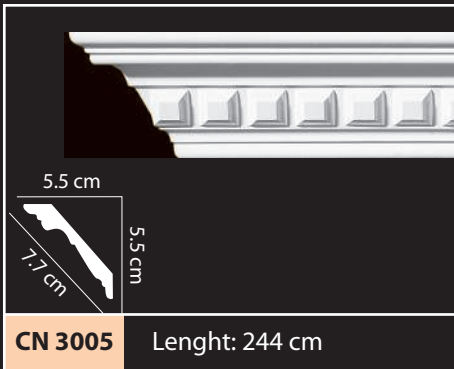

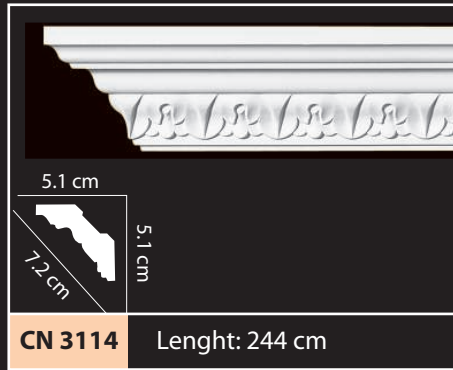

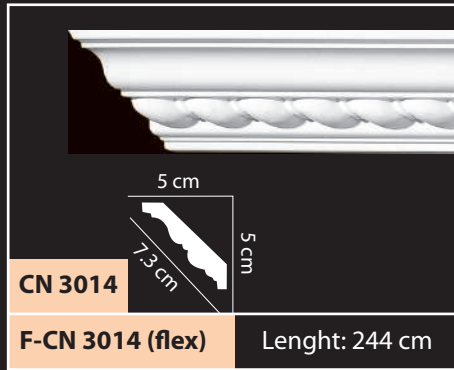

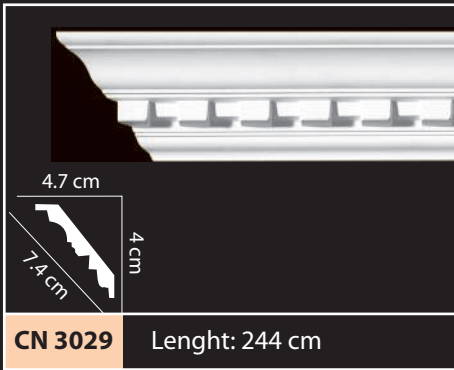

De flesta av våra polyuretanlister levereras i längder om 2,44 meter och priset är per styck. De flesta av produkterna lagerförs. Ej lagerförda produkter har en leveranstid på ca 2-3 veckor. Produkterna kan antingen hämtas på vårt hämtlager eller skickas hem till dig. Vid hemleverans tillkommer en fraktkostnad. Kontakta oss på mejl eller telefon för beställning.
