# COMFIT™ Endotracheal Tube Holder

The Tapeless Way to Secure an Endotracheal Tube

COMFIT is a reliable, tapeless solution used to secure endotracheal tubes and better manage patient airways. Physicians appreciate COMFIT's compliance with Advanced Cardiac Life Support (ACLS) Guidelines that recommend endotracheal tube stabilization devices as a substitute for tape. For patients, COMFIT provides a comfortable fit without the skin irritation that tape can cause.

## Features and Benefits:

- Significantly decreases the incidence of self-extubation<sup>1</sup>
- Wide cotton-lined neckband minimizes skin irritation, providing maximum patient comfort
- No tape on the tube or the patient
- Completely adjustable
- Minimal plastic loop around the endotracheal tube allows access to the oral cavity
- A low-cost device that requires infrequent changing
- Latex-free product
- Complies with American Heart Association's ACLS Guidelines recommending the use of commercially available endotracheal tube holders instead of tape
- Plastic double securing loop, ½- x 19-inch neckband

## COMFIT

CA\* CE

Number	Description
42-1820	Tapeless Endotracheal Tube Holder (25/Box) Each set includes: (1) plastic tube grip, with hook/loop strap, foam foot pads, (2) foam "lollipop" tapes

1. McAndrew J, RR. Reduction of self extubation using Comfit™ tracheal tube holder. *Respiratory Care*. November 1994; 39 (11).

**TRAKE-fit™ Collar Set**

CA\* CE

**Tracheostomy Tube Holder For Maximum Patient Comfort**

- Available in single- or double-collar sets
- Installs in seconds, remains secure
- Maximum comfort with cotton-lined neckband
- No adhesive, no narrow tape
- Completely adjustable
- Narrow tabs available for pediatric and small adult use
- Third-party reimbursable

Number	Description
43-1850	Double Collar Set (25/Box) Each Set includes: (2) neckbands, (2) wide hook/loop tabs
43-1851	Single Collar Set (25/Box) Each Set includes: (1) neckband, (2) wide hook/loop tabs
43-1862	Double Collar/Narrow Tab Set (25/Box) Each Set includes: (2) neckbands, (2) narrow hook/loop tabs

All products are packed nonsterile, in a clear, resealable plastic package.

**Bronchitrac® "L" Set**

CA\* CE

There is no need to twist the catheter or patient's body. Simply advance the Bronchitrac "L" through a properly placed endotracheal or tracheostomy tube. The dual-plane, patented curvature of the catheter ensures consistent entry into the left main-stem bronchus.

The time savings and reduced patient trauma provided by the Bronchitrac "L" make it the obvious choice when suctioning the left-bronchial airway.

- Ideal for suctioning of post-cardiac surgical, neuro and critical care patients
- Can be used for deep-lobe suctioning
- Completely latex-free

Number	Description
41-7814	14 Fr Bronchial Suction Catheter, Slide-cover Connector and (2) Vinyl Gloves, Sterile (20/Boxes)

**Esophageal Balloon Catheter Set**

CA\* CE

**For Intrathoracic Pressure Monitoring**

- **Ease of Insertion** – The catheter comes with a new, easy-to-remove PTFE-coated stylet to aid the insertion procedure
- **Comfort** – The 5 French catheter is soft and pliable, offering maximum patient comfort over extended time periods
- **Ease of Positioning** – The new proximal Y-connector allows for precise balloon positioning with the stylet in place
- **Depth Markings** – The catheter is radio opaque with numerical depth markings to facilitate positioning
- **Ease of Connection** – The catheter has a standard female Luer connector
- **Several Applications** – Ideal for monitoring ventilator and sleep apnea patients and calculating lung compliance

Number	Description
47-9005	5 Fr Catheter, latex-free Balloon, Stylet, 36" Pressure Monitoring Extension, 3-way Stopcock (5/Box)

**Irrijet®**

CA\* CE

Simple, one-hand, thumb-controlled pressure provides an appropriately forceful stream (8 psi) directly to the desired area (or a gentler stream if needed). The soft flexible tip has an inside diameter equivalent to an 18-19 gauge needle.

- **Splatter-Gard™** prevents contamination from body secretions – new concave design provides maximum splash-back protection
- Soft, flexible plastic tip eliminates needle-stick for user, minimizes trauma to patient
- Irrigant is delivered with force equivalent up to 8 psi
- Latex-free product

Number	Description
55-0004	Irrijet GP, spring-loaded syringe with 12 cc capacity (5/Box)
55-0504	Irrijet Single-Patient Multi-Use, Product 55-0004 plus package of 5 individually sealed jet tips (5/Box)
55-2104	Irrijet Single-Use, Product 55-0004 plus jet tip and Splatter-Gard (5/Box)
55-2134	Irrijet Single-Use, Product 55-0004 with 35 cc syringe capacity, plus jet tip and Splatter-Gard (5/Box)
55-2004	Irrijet Single-Use, Product 55-0004 plus ZEROWET® Splashshield® (5/Box)
55-6504	Irrijet DS (5/Box)
55-6100	Individually wrapped sets of one each Splatter-Gard, tip and cap (10/Box), Case (4/Boxes)
