

Fischer Cone Biopsy Excisor™

Improves Control During Cone Biopsy Procedures

Features and Benefits

Fischer Cone Design: Removes a perfect conical cervical specimen in seconds, resulting in less thermal artifact with more readable margins, providing an easier evaluation process for the pathologist.

360-degree Rotating Motion: Reduces free-hand variability, improves control and provides predictable results.

Curved Stop Arm: Permits precise positioning of the instrument and allows unobstructed view of the cutting action at all times during the procedure.

5 mm Distal Tip: Provides stability by sitting in the cervical os.

Linear Rigid Wire: Provides an accurate, smooth biopsy and requires less wattage, resulting in clean, precise cutting action with less drag, no bending and little to no burning or bleeding.

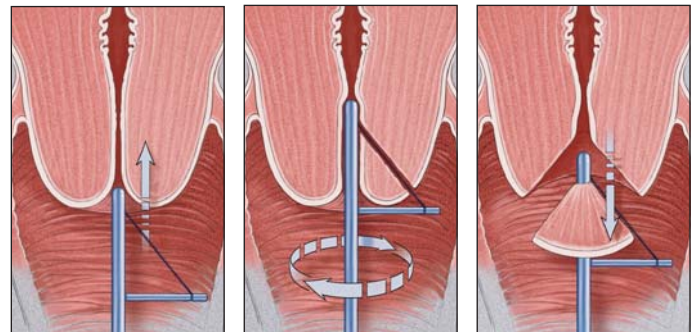

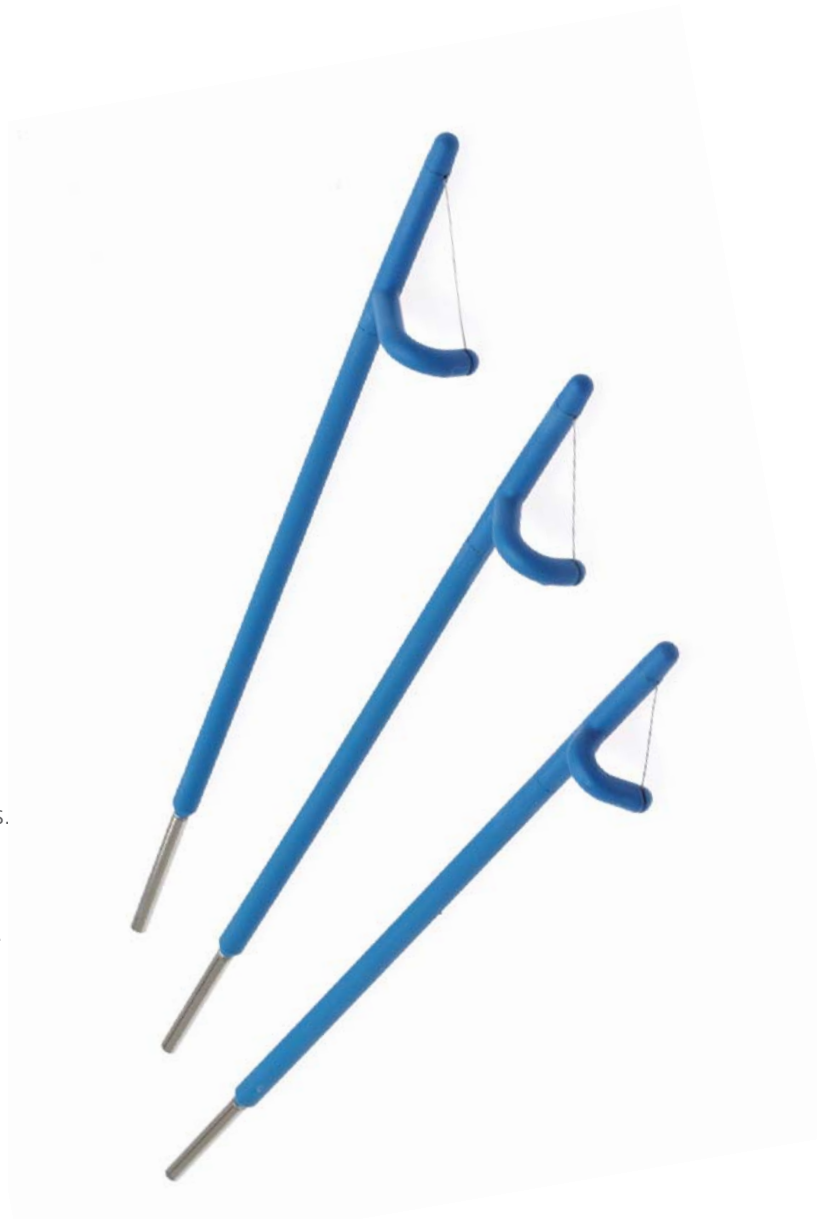

Reduces Burning: Smaller electrode with higher power intensity than large loop devices minimizes tissue char, potentially leading to less cervical stenosis.

Biopsy Positioning Label: Allows the pathologist to accurately orient the biopsy to ensure clear margins.

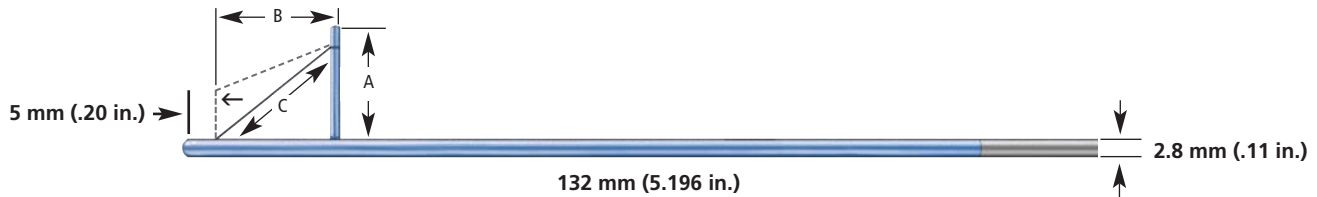

Extended Stop Arm Tip: Uniquely designed arm protects lateral side wall and provides firm support and added wire electrode stability.

Fast Procedure, Better Results: Procedure requires only local anesthetic and can be performed in the surgeon's office or the clinic.

Fully Insulated Shaft: Protects the endocervical canal.

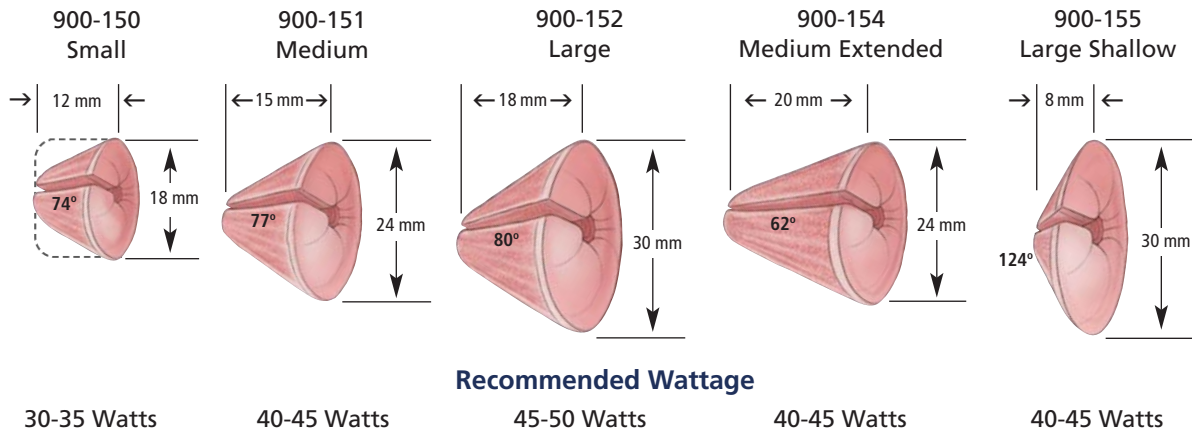

Fisher Cone Biopsy Excisor™

Instrument Dimensions		A		B		C (Wire Length)	
Catalog No.	Size	mm	in.	mm	in.	mm	in.
900-150	Small	9	.354	12	.472	15	.590
900-151	Medium	12	.472	15	.590	19	.756
900-152	Large	15	.590	18	.708	23	.921
900-154	Medium Extended	12	.472	20	.787	23	.918
900-155	Large Shallow	15	.590	8	.315	17	.669
900-157	Small Wide	9	.354	12	.472	17.9	.705
900-158	Small Wide Extended	9	.354	20	.787	25.8	1.020

Biopsy Sizes

Delivers improved control during excision and better specimens for pathology evaluation:

- Simple to use
- Easy to control
- Better specimen

Ordering Information

Part Number	Description
900-150	Fischer Cone Biopsy Excisor, small, box of 5
900-151	Fischer Cone Biopsy Excisor, medium, box of 5
900-152	Fischer Cone Biopsy Excisor, large, box of 5
900-154	Fischer Cone Biopsy Excisor, medium extended, box of 5
900-155	Fischer Cone Biopsy Excisor, large shallow, box of 5
900-156	Fischer Cone Biopsy Excisor, Mixed set one of each: small, medium, medium extended, large and large shallow
900-157	Fischer Cone Biopsy Excisor, small wide angle, box of 5
900-158	Fischer Cone Biopsy Excisor, small wide angle extended, box of 5

CooperSurgical is the leading company dedicated to providing medical devices and procedure solutions that improve health care delivery to women regardless of clinical setting. Our company is fostering that position through expansion of its core businesses and introduction of advanced technology-based products which aid clinicians in the management and treatment of commonly seen conditions.
