

Top forming, top form.

It really feels good, the large, rounded handle of the SCRAPEX ARGENTAX. But even the performance of this classic scraper convinces. So you can free all smooth surfaces from residue and remains with it - no matter whether at work or at home. When you're done, push the protective cap over the blade, and everything is safe.

Especially ergonomic
Ergonomics is not the exception with us, but the rule. Even a scraper like the SCRAPEX ARGENTAX waits for you with a rounded handle, which you would gladly also hold for longer in your hand.

Large blade extension
There is comparatively a lot of blade available for a scraper. The advantage: You can reach between the surface and remains of the glue much more easily and can then remove it much more easily too.

Flexible to use
The SCRAPEX ARGENTAX is very suitable for flat scraping angles. So you can depend on your scraper even in difficult situations.

For right and left
The SCRAPEX ARGENTAX fits into every hand. No matter whether it's your right or your left hand. Because the handle has been shaped in such a balanced way, that no type of handling is preferred or neglected.

Easy blade changing
And that completely without a tool: you just have to push the blade to the side and take it out.
