Order No. 564001.00

Thumbs up – for very long cuts.

The SECUPLUS 564 is characterized by its thumb opening and its extra-long edge, which also makes an ideal support surface. These safety scissors enable you to completely control your work. Moreover, you need fewer cuts to complete the job of cutting through cardboard, paper, film, fabric and much more. Optimal safety guaranteed by the special sharpening of the cutting edges and the rounded tips.

Efficient, but not hazardous

Take a look at the cutting edges. Noticed anything? They are not ground at an angle, but at right angles. Therefore you cannot cut yourself, only the large range of potential materials.

Stainless steel

You will be able to use your scissors for a very long time as the metal parts are made from stainless steel. The handles have been coated in a plastic reinforced with fibreglass. Another guarantee for a long service life.

Comfortable working

The experts call them "eyes" and these are the two openings in which you insert your fingers to securely hold the scissors. The "soft grip" on the insides also helps to ensure comfortable and non-slip working.

Extra-long cutting edges

Fast and controlled – you will cut through easily using the SECUPLUS 564. Fast, thanks to the long cutting edges. Controlled, as the entire length from the finger opening to the tip can be used as a support surface.

Sturdy connection

A matter of course for quality scissors: Both of the cutting edges are held together by a real screw. This ensures sturdy connection and permanent high cutting power.
