

# SOLLEX

## **Sollex Packaging, Paper, and Shipping Policy**

At Sollex, we are committed to reducing our environmental impact through responsible management of packaging, paper, and shipping practices.

### **Packaging & Paper**

- We strive to reduce, reuse, and recycle paper and packaging wherever possible.
- We prioritize the purchase of recycled and recyclable paper products.
- We minimize paper use and printing in the office, promoting digital alternatives.
- We encourage our employees and network partners to avoid unnecessary printing of emails and documents.

### **Shipping & Suppliers**

- We actively seek sustainable shipping options to reduce environmental impact.
- We prefer working with local and nearby suppliers to minimize transport distances and emissions.

Through these practices, we aim to promote sustainability, conserve resources, and support environmentally responsible operations across our organization and supply chain.
