

Technical data sheet

Crush cut knife Øe100mm Pressure cut rotary knife for use in pneumatic holders that require a circular knife with a diameter of 100 mm to cut flexible soft materials e.g. textile or rubber against an hardened anvil.			
Sollex article no.:	P834		
Quantity of blades:	1pc		
Type of blade:	2-sided double bevel crushing circular knife		
Cutting depth, min:	30 mm		
Material:	Tool steel		
Dimensions	Diameter, outer: 100 mm Hole, inner diameter: 40+0.03 mm Thickness: 2.5 mm		
Bevel:	double bevel, 30°	Hardness:	60-62 HRC
Recommended materials to cut:	Nonwoven Textile Rubber Fiber glass	Not recommended materials to cut:	Paper Laminate Plastic film sheet Aluminium
Compatible with:	e.g. Helios EK30 pneumatic holder (min.cutting 30mm / blade ø100mm / max.speed 400 mpm / vertical force 25kg) or any other pneumatic holder that requires Ø100mm crush knife.
