- 1 Billet Filter Ends, AN-10 7/8 UNF
- 2 O-ring 44,6 * 2,4 mm
- 3 200mm Stainless Steel 10mic Filter Element
- 4 Filter housing with laser engraving
- 5 Spring

PRODUCT INFO

This is our lightest fuel filter ever, we've cleared the weight of all places possible. This is a true performance filter, suitable for those with high demands for fuel flow and maximum filtration.

Our filters is An inexpensive insurance policy to protect your engine. Same slim design as our Slim fuel filters but this is over dimensioned for demanding needs.

Designed to stand up to the destructive properties of alcohol fuels, including methanol and ethanol. High-flow, 10-micron, 200mm replaceable stainless filter element. Stands high flow with minimal pressure drop. AN-10 Ports made for highest flow possible, this filter only comes with AN-10 fittings for over dimensioned fuel flow.

We strongly recommend to change the internal filter unit once a season, especially when using ethanol.

Use with our Universal Bracket to make a clean and safe installation in any vehicle. Made for demanding needs and extreme motorsport use. Nuke Performance high-flow fuel filters is light weight and extremely durable thanks to its unique design.

TECH. INFO

Aluminium extrusion 6062-T6.

Fuel filter with 7/8 UNF thread.

Ethanol and methanol proof.
