

EQUINE FUSION®

Happy, Performing Horses!

All Terrain

The most comfortable hoof shoe on the market

The key features for the flexible and elastic Jogging shoe

- 1) Safeguards the horse's natural **balance** (utilize entire area)
- 2) Safeguards the horse's natural **stability** (utilize entire area)
- 3) Ensures the horse's need for **cushioning** (natural hoof movement, absorb shock & vibrations)
- 4) Promotes a more **consistent surface contact** (adapt to the hoof-ground interface, customized grip)
- 5) Promotes a more **natural rollover motion** (natural hoof movement, customized grip)

All Terrain

Congratulations on your purchase of All Terrain.

The All Terrain Jogging Shoe is soft and flexible, just like all the other Jogging Shoes, but has a thicker sole which makes it more wear resistant and provides excellent grip on all surfaces.

Size	Size Range Length	Size Range Width	Break over - Point	Weight
7	6.6-7.5 cm (2 5/8 - 2 15/16")	up to 7 cm (2 3/4")	7 mm	139 gr
8	7.6-8.5 cm (3 - 3 3/8")	up to 8 cm (3 1/8")	7 mm	161 gr
9	8.6-9.5 cm (3 3/8 - 3 3/4")	up to 9 cm (3 9/16")	7 mm	185 gr

15	14.6-15.5 cm (5 3/4 - 6 1/8")	up to 15 cm (5 15/16")	10 mm	521 gr
16	15.6-16.5 cm (6 1/8 - 6 1/2")	up to 16 cm (6 5/16")	10 mm	576 gr

Dampening Factor	Terrain	
Sole	Medium +	Hard to medium soft, plus ice (when Stud Kit All Terrain installed)
Sole with pad	Soft +	

All Terrain

QUICK STEP- installation

1. Open the shoe wide

2. Place the shoe on the hoof. Make sure that the toe is all the way in front of the shoe, and that the shoe is centered in the back.

3. Put the Velcro together. Check that both Velcro's are aligned on top of each other.

4. Pull the strap firmly with a hoof pick and secure. This will pull the shoe more tightly around the hoof.

5. Lift the front flap to closed position. And secure with the Velcro on the sides.

6. Ready to run!
