

RGA1

WEBBING FALL ARREST BLOCK - 2.5M

The RGA1 is a retractable mini web block ideal for personal issue to operatives working at height. The unit is designed to be connected to a suitable anchor point and the swivel end to the harness.

The RGA1 has an almost instant lock off in the event of a fall, and recoils into the drum when slack is introduced into the lanyard. The reduced trip hazard and compact design make this unit ideal for tight work and tasks where a shorter arc of mobility is required. The addition of a swivel hook avoids twists to the webbing.

Accredited to: EN 360:2002

Line material: 47mm polyester webbing

Case material: Steel with rubber protective cover

Connector(s): Steel screwgate karabiner (RGK1)
Aluminium swivel triple action karabiner (RGK44)

Weight: 1.4kg

Max user weight: 140kg
