Light  storm

LS 1/2

Product Manual

English

Foreword

Thank you for purchasing the Light Storm

The Light storm LS 1/2 is made of 264 SMD lamp beads which are designed and manufactured carefully to have over 95 CRI value. Delicate design and elaborating production make a robust but exquisite housing, which can fulfill low forward heat of the fixture. LS 1/2 offers dual power solutions. You can use V-Mount or Anton Bauer battery in a location shooting. Besides, adapter attached is for your indoor shooting. LS 1/2 is with the ability to adjust the brightness. Two antennas can cover all the surrounding within 360°. You can also control the brightness of LS 1/2 by a DMX console which is under the standard DMX512 protocol. Light storm, the best choice for your shooting.
