**ROMITELLI**  
MONTE SAN GIUSTO, ITALY

[WWW.ROMITELLISHOES.COM](http://WWW.ROMITELLISHOES.COM)

The Romitelli Shoes srl factory is located in Monte San Giusto, in the Marche region, worldwide known as one of the most important and ancient Italian footwear districts.

Largely appreciated for years in the equestrian world under the brand name Romitelli, it has become synonymous with creativity, design and customization and it boasts an experience of over 40 years in the footwear sector: in fact, 1979 is the year of its foundation by Enrico Romitelli, senior partner as well as CEO.

The direct knowledge of production techniques combined with the careful selection of leathers and accessories is the essential prerogative for the creation of a rigorously handmade product intended for those who are not satisfied with just a pair of boots but they want a unique, inimitable, strictly Made in Italy creation.

A team of experts, including Marco Romitelli, Enrico's son, constantly works to stay ahead of the market trends by playing a role in the evolution of the design and always offering innovative solutions to customers who increasingly ask for originality and reliability.

Paying particular attention to the design and every last detail, the Romitelli custom-made boots are scrupulously made with top quality leathers that give the product remarkable features of quality and elegance.

So, do you want to get the boots of your dreams? You have just to imagine them, Romitelli will make them happen!
