

# YPP-525 Pneumatic, hydraulic pump with pressure gauge, hose

APPLICATION IMAGE

## DESCRIPTION

The pneumatic and hydraulic pumps are used for application with the pullers from the KUKKO hydraulic program in crafts, industry, and workshops. The compressed air-operated hydraulic pump can be used via foot or hand operation and is optionally available individually or together with hose and pressure gauge.

## APPLICATION AREA

For hydraulic use of pullers in craft, industry, and workshop.

## BENEFIT

- Safety valve as overload protection ensures safe working.
- With 2-stage drain valve for easier application
- Applicable for simply acting press cylinders

## MASTER DATA

GTIN [EAN]	4021176469732
Country of origin	DE
Case material	Tool steel
Series	YPP
Net weight [kg]	12,93 kg
Package contents	1 piece
Packaging Act	PAP 21
Global sales capability given	Yes (REACH, RoHS, POP, PROP65, TSCA)
