

Honing and polishing

UNIVERSAL GLOSSY

Universal polishing cream for all natural stone like marble, granite and agglomerates.

LINEA
PROFESSIONALE

UNIVERSAL GLOSSY is a water-based cream to polish surfaces. This advanced product, thanks to its special formula, can polish Marbles and Granites as if they were the same material, without any difference in brightness or without incurring in different products to polish the same floor.

UNIVERSAL GLOSSY is ideal both to polish mixed floorings, made up of Marbles, Limestone, Travertine, Granite, Quartz and even Ceramic and to polish floors made up of just one material. In fact, the product is easy and fast to use, it does not leave any defect and a high bright vitreous effect with an excellent resistance to foot traffic.

The product is suitable for the maintenance of big surfaces, allowing a light but much effective maintenance. The product does not require water for application, enhances brightness and restores the original color of material, should it be partially lost.

CHARACTERISTICS AND BENEFITS

- ✓ Marked brightness
- ✓ High hardness
- ✓ Resistance to foot traffic
- ✓ Fast result
- ✓ Closure against soiling agents

USES

For interiors and exteriors: Marbles, Limestone, Travertine, Granites, Quartz and Ceramics.

COVERAGE

50/70 m²/lt

APPLICATION EQUIPMENT

Single disc machine, which has a power of 2 HP (2.2 HP is preferable); Manual rotary brush.

Faber Chimica is able to supply the WARRIOR Single disc machine, which has a power of 2.2 HP, and is optimised for the correct application of any product.

APPLICATION

Test on a small area before proceeding, so to ensure product suitability and final result.

Proceed by small surface portions of about 1-2 sq.mt. each. Put 1-2 teaspoons of product on the area to treat and make a dry-buffing, making concentric movement with a floor machine and white pad. Continue until dry, by prolonging the movement with the machine to remove possible residues. In order to obtain a higher brightness or superficial closing, repeat application. The product does not give any superposition defect; therefore, once obtained the maximum brightness, no defect can be remarked between two areas polished separately.

After polishing the surface, rinse with water and vacuum up the residues on the surface.

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Cram
Color:	White
Odour	Odourless
pH:	2,7 ± 0,5

STORAGE

Keep the container tightly closed and store in a cool, dry place.

SHELF LIFE

24 months in the original, sealed packaging, stored in a cool, dry place.

PACKAGING

- 5 kg containers – 4 per box

HAZARD IDENTIFICATION

H302	Harmful if swallowed
H373	May cause damage to organs through prolonged or repeated exposure
P260	Do not breathe dust/fume/gas/mist/vapours/spray.
P261	Avoid breathing dust/fume/gas/mist/vapours/spray.
P264	Wash thoroughly after handling
P270	Do not eat, drink or smoke when using this product
P271	Use only outdoors or in a well-ventilated area
P280	Wear protective gloves/protective clothing/eye protection/face protection
