REFLEX

Floor & Above

Innovative
cleaning tools

Scandinavian thinking.
Global commitment.

WHAT IS THE REKOLA REFLEX “FLOOR & ABOVE” CONCEPT?

Specially designed products to cover
all manual cleaning needs.

HEALTHCARE

PUBLIC AREAS &
GENERAL BUILDINGS

FOOD INDUSTRY
HoReCa

WE PUT FACTS BEHIND THE “4 E'S”

Our mission at Rekola is to push the boundaries of hygienic and sustainable cleaning. With **REKOLA REFLEX**, we set the standard for efficient cleaning through a system that is designed to benefit everyone—from the individual user to the entire organization.

ECONOMICS

Reduces money spent on laundry, logistics and the product itself.

EFFICIENCY

We use high-quality microfibre materials, which allow us to achieve excellent dirt removal capability

ENVIRONMENT

Reduces water consumption, and the use of chemicals. Very low microfibre shedding (559 mg/m²)*

*: Tests conducted by Weber & Leucht GmbH

ERGONOMICS

Scientifically proven,* more ergonomic design reduces the strain on users.

*: As part of EU-funded study “ErgoClean”

Reduced laundry costs

- More cloths per laundry cycle than mops — **saves time**.
- Covers more area with one mopcloth than a flatmop — **less washing**

Reduced investment costs

- **2-in-1 tool** — mopping and squeegeeing in the same tool.
- Reduces training needs — easier to use, easier to adapt.

Reduced logistical costs

- **Less material** — less storage space.
- **Fewer cloths needed** — 50% larger area coverage than a flatmop.

Nordic Swan Ecolabel

- The Nordic Swan Ecolabel certification ensures effective cleaning with minimal environmental impact, reflecting our commitment to sustainability.

Reduced water usage

- Reduced water usage due to less water needed for moistening and the laundry process.

Less, or no chemicals at all

- REKOLA REFLEX is designed to work effectively with tap or purified water, **reducing or even eliminating the need for chemicals.**

Comfortable grip

The ergonomic handle features a comfortable grip, making it easy to use and reducing strain during cleaning tasks, even over extended periods.

Scientifically proven

As part of an EU-funded study, it was proven that the **REKOLA REFLEX** system's squeegee and telescopic handle are **more ergonomic** to use compared to a traditional flat mop.

Telescopic handle

The light-weight telescopic handle offers adjustable length, ensuring flexibility and ease of use when reaching high or hard-to-access areas.

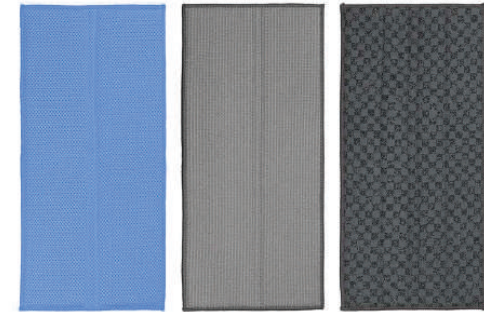

Innovative turn-lock

Prevents over-turning when adjusting the handle height.

HIGH PERFORMANCE PADS & CLOTHS

Our product range includes three carefully selected microfibre compositions, designed to simplify and enhance ease of use. These same materials are effective for both floor surfaces and overhead areas, ensuring versatile and consistent cleaning performance throughout.

Colour coding

Available in **four (4)** different colours.

S PAD

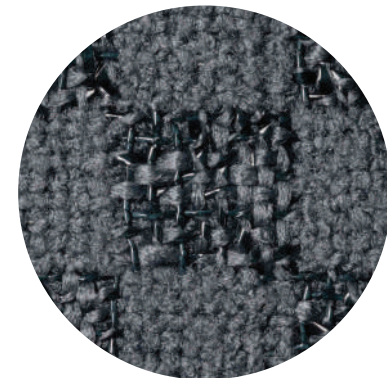

Reusable

S PAD replaces traditional sponges for a more hygienic, eco-friendly clean. **S PAD** can be washed and reused hundreds of times, making cleaning easier and more economical.

Innovative material

Gentle on chrome and mirrors and highly effective on hard surfaces like sinks, taps, toilets, baths, and glass.

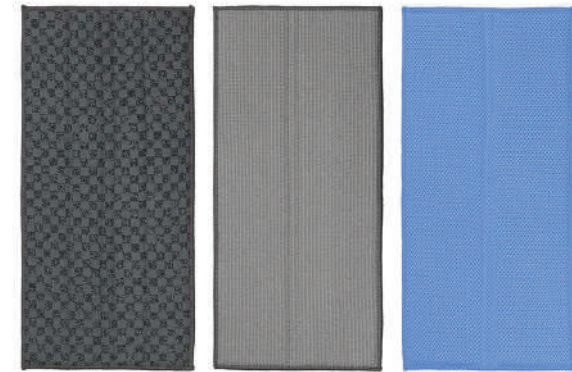

Ergonomic design

With DuoFlex, you can effectively clean glass, mirrors, stainless steel, tables, and any hard surface that requires dusting or cleaning.

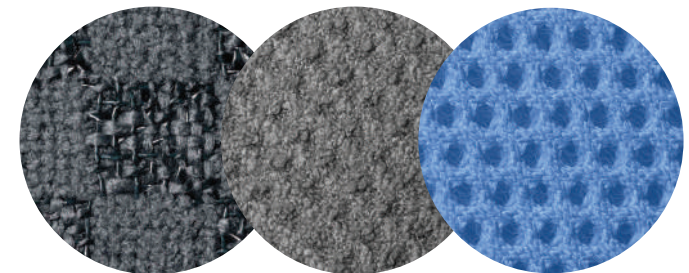

This versatile tool features an adjustable telescopic handle and a specially designed head that increases surface pressure, resulting in superior cleaning performance.

DUOFLEX

Different materials

Three (3) different pads available for different materials: Abrasive, Ultra microfibre & Mesh.

Rekola Reflex H MOPCLOTH

For daily cleaning of all floor surfaces with high hygiene requirements.

100% ultra microfibre;
40% recycled PES

Product code: 23-2055

Rekola Reflex A MOPCLOTH

Perfect for dusting large areas and removing dirt and dust particles. Suitable for all sealed hard floors. High absorption capacity (450 ml)

100% microfibre

Product code: 23-0057

Rekola Reflex G MOPCLOTH

Ideal for daily cleaning of all floor surfaces.

50% ultra microfibre
50% PET microfibre;
44% recycled PES

Product code: 23-4059

Rekola Reflex POWER SQUEEGEE

High-quality aluminum housing with a replaceable rubber blade. Innovative 2-in-1 system that enables both squeegeeing and mopping with a single tool.

Product code: 24-0010

Rekola Reflex S MOPCLOTH

Perfect for hard and ceramic floors. Removes over 99% of bacteria and effectively cleans grease and limescale from chrome and glass without damage.

50% ultra microfibre
50% PET film;
40% recycled PES

Product code: 23-7059

Rekola Reflex HANDLES

Ergonomic telescopic aluminum handles that extend up to 180 cm for optimal comfort and usability. Features an innovative locking system for enhanced durability.

A non-telescopic spray handle is also available.

Product codes: 18-0021 (short)
18-0020 (long)
22-0023 (spray)

Rekola Reflex M DuoPad

Mesh pad specially designed for glass surfaces such as windows and mirrors.

Product code: 24-90080

Rekola Reflex DuoFlex

Specially engineered tool and frame deliver increased surface pressure for more effective cleaning. Double-sided design maximizes amount of area cleaned.

Product codes: 18-0021 (handle)
24-90071 (frame)

Rekola Reflex G DuoPad

Ultra microfibre pad for versatile use on surfaces like tables and walls.

Product code: 24-90076

Rekola Reflex S PAD

Abrasive pad for hand cleaning, specifically designed for use in kitchens and bathrooms.

Available in four (4) colours.

Product codes: 21-0350 (blue)
21-0354 (red)
21-0355 (green)
21-0356 (yellow)

Rekola Reflex S DuoPad

A versatile abrasive pad suitable for removing stubborn stains from hard surfaces.

Product code: 24-90077

Rekola Reflex C CLOTH

Versatile ultra microfibres cloths for any hard surface including glass, chrome and mirrors.

Available in four (4) colours

Product codes: 24-9250 (blue)
24-9254 (red)
24-9255 (green)
24-9256 (yellow)
